

JOHN SMILIN DS

johnsmilin6@gmail.com

Software Engineer | Web and App Developer |
UI/UX Designer

SUMMARY

A passionate and detail-oriented software engineer with proficiency in Java and hands-on experience in developing web and mobile applications. Skilled in full-stack development, UI/UX design, and solving real-world problems through technology. Eager to leverage technical expertise and creativity to contribute to innovative projects and collaborate in dynamic teams.

EDUCATION

Excel Engineering college

Bachelor's Degree in computer science and engineering with
2021 – 2025

SLB Gov Higher Secondary School

HSC-12th
2020 – 2021

SKILLS

- Proficient in Java (Core Java, OOP concepts, Multithreading)
- Full-stack development (React.js, Node.js, Flutter)
- Experience with RESTful APIs and microservices
- Database management (MySQL, MongoDB, SQLite)
- Version control using Git/GitHub
- Knowledge of data structures and algorithms
- UI/UX design and prototyping

CERTIFICATIONS

- UI/UX Design Certification – Udemy
- Full Stack Web Development Certification – Udemy

SELF-LEARNING

- Java, Data Structures & Algorithms – YouTube
- Mobile App Development with Flutter – YouTube
- Backend Development with Node.js – YouTube

PROJECTS

EduTrack (React.js, Node.js, SQL Lite)

- Developed an educational website to track student progress, attendance, and academic performance.
- Built a dashboard for teachers to update student information and generate reports.
- Integrated SQL Lite for data storage and Node.js for the backend functionality.

Trash Track (Flutter, Firebase, Google Maps API)

- Built a waste management application allowing users to report trash collection issues and track pickup schedules.
- Integrated Google Maps for location tracking and Firebase for real-time database functionality.

Portfolio Website (HTML, CSS, JavaScript)

- Created a personal portfolio website showcasing projects, skills, and contact information.
- Implemented responsive design for an optimized user experience on both desktop and mobile devices.

CAREER OBJECTIVE

- Aspiring software engineer with a passion for coding and a strong foundation in Java, full-stack development, and UI/UX design. Seeking to leverage my skills in developing innovative web and mobile applications to contribute to impactful projects and solve real-world challenges. Eager to join a dynamic team where I can continue to grow professionally, apply my creativity, and make meaningful contributions to the success of the organization.

HOBBIES AND INTERESTS

- Content creation and content writing
- UI/UX design and creating digital interfaces
- Building websites and mobile applications
- Watching movies and exploring different genres
